

## Kevlar Cover

- Kevlar is typically used in over pressure and potentially explosive applications.
- The BFM® Kevlar Cover is designed to fit over existing connectors and can be tightened onto the BFM®
  Spigot using the butterfly mechanism at the top and the base of the connector.
- It is very easy to install and remove, no tools required.

## **Physical Properties**

Fibre	Kevlar (Aramid)
Construction/Finish	Multi-filament
	plain weave, scoured and
	heat set
Weight ±10%	447 g/m <sup>2</sup>
	13.2 oz/yd <sup>2</sup>
Max. Operating Temp	260°C/500°F
Max. Surge Temp	300°C / 572°F
(NB: Limited to max. operating temperature	e of inner connector)
	Fabric
Average Tensile Strength (kgf)	Warp 700
Test Standard: ASTM 5035	Filling 704
	(±58 kgf)

Kevlar meets the FDA requirements for textiles used in the processing of foods, Drugs Title 21, Section 177.1632.
